From time to time, a nonprofit Executive Director, senior administrative staff member or Board member needs a thought partner or coach to work through a challenge or explore an opportunity.

The Consultant Support Program can provide funding for a consultant to work a limited number of hours (plus ancillary expenses).

Eligibility Criteria:
- Nonprofit organizations serving The Community Foundation for Greater New Haven’s twenty-town service area, including the 5 towns served by the Valley Community Foundation
- Annual operating budget under $2 Million
- Discrete project; funding cannot be used as part of a larger engagement with the consultant (e.g., cannot be used to pay first $1,000 toward a $10,000 strategic plan)

Other Considerations:
- Applicants may choose from a vetted list of consultants or engage their own consultant, provided that the work is performed for an hourly rate not to exceed $125/hour
- Organizations may receive funding from this program one time in 2020
- Award will not impact eligibility for any other grant process offered by either foundation

To inquire about this program, please contact a staff member below. You will be asked to complete a short application and budget form if your proposal is suitable for this program.
